### Grants

Grants and Funding Opportunities are a powerful way for local governments to help finance a broad range of services, including infrastructure, public safety, social services, and quality of life.

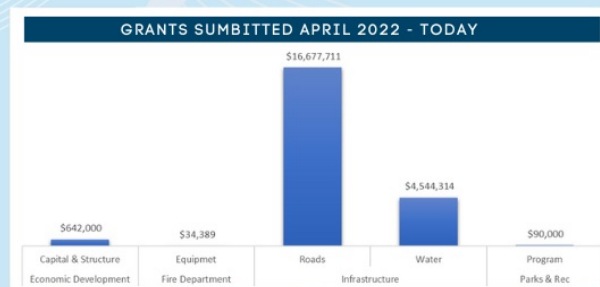

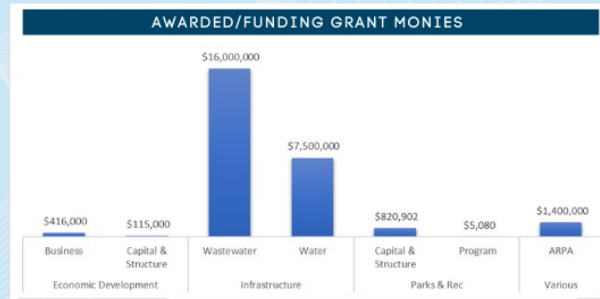

In the last several years, the City of Colusa has prioritized grants to help us meet General Plan Goals and community needs. Below is a current snapshot of our Grant and Funding Opportunities, reflecting federal, state, and private funding.

If you have any questions or want more detail on the grants we have received or applied for in the last several months, don't hesitate to contact Fernanda Venetta.
