Notice of Upcoming Repairs

After a final parts fix several weeks ago, the a/c unit at the Scout Cabin came to a timely end last week. A replacement unit has been ordered, and work to exchange the old system with the new one is anticipated to take place in the next two weeks. In the meantime, we have added a temporary Port-o-Cooler to the building. If you have the Scout Cabin reserved and would like to know other options,

please contact City Hall.

Smell Complaints

We want to hear from you!

We have seen and heard your complaints about smells in the community. We ask residents to please call City Hall with their smell complaints so we can track and log them. These calls will help us to have the information needed for City Staff and Council to address issues with local businesses and production facilities going forward.

If you call outside of regular City Hall hours, we ask that you leave a message with as much detail as possible- including your name, what you think the smell is, and where you believe it is. Your help in capturing this information is appreciated. Please call (530)458-4941.

Let us know!

Notice a strong smell in town?
Please let us know!
Call (530)458-4941
and inform City Staff

Calls regarding smells will be documented and counted, specifically around cannabis cultivation and mushroom production. These totals will be presented in the Monthly Staff Reports during City Council Meetings.
