

CITY OF COLUSA PARKS, REC, & TREE COMMISSION, WITH THE
SUPPORT OF COLUSA ROTARY CLUB PRESENTS:

Trees for Tomorrow

FALL 2025

The City of Colusa Parks, Recreation, and Tree Commission, with the support of the Colusa Rotary Club, is offering to purchase and plant trees for residents interested in planting trees in mow strips, increasing their property value, cleaning our air, cooling our community, and truly making Colusa a "City of Trees."

*All you need to do is select your tree(s) of choice and promise to
water and care for it so that future generations can enjoy it!*

If you would like to plant a tree in the mow strip on your property, please fill out a Tree Planting request form, and we will work out a plan to make it happen. Preferred trees are featured on the other side of this printout.

You can find the tree planting request application and the City of Colusa Master Tree List online at www.cityofcolusa.com (Departments>Parks) or at City Hall, 425 Webster Street.

Completed applications for this program, may be turned in to City Hall in person or emailed to citymanager@cityofcolusa.com. The \$25.00 fee for hole-digging has been waived for this Fall 2025 round.

Optional donation of \$25.00 per tree, to Colusa Rotary, is welcomed.

Application deadline is Thursday 11/13

*Space for this program is limited
to the first 15 applications
received. Applications received
after the deadline will be
considered for spring planting.*

Tree planting
will begin the
last week of
November

Preferred Trees

If you are unsure of the type of tree, please leave blank on application. A Commission member can recommend a tree for the requested space. We will help you confirm the planting will not affect wires, pipes, and other underground utilities.

Chitalpa X Desert Willow

- smaller street tree for cramped areas
- 25-30 ft
- lovely summer blooms

Shumard Red Oak

- large tree
- 70' tall, 40' wide at maturity
- drought-tolerant oak, nice fall color.

Chinese Pistachio

- medium to large tree
- up to 50 ft
- lovely fall foliage

Japanese Elm

- large tree
- 50'-60' tall, 40' wide at maturity
- interesting flaky bark

Trident Maple

- medium tree with a wide spread
- 30-40 ft max height, 30 ft spread
- gorgeous fall foliage

Ginkgo Biloba

- large tree
- 50'-60' tall, 30' wide at maturity
- bright yellow leaves in fall that drop almost at once
